REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance. Although it is relatively well documented in the art that tin-based coatings can be applied to nickel preplated steel strip (e.g. see the cited Carey and Ooyagi references), applicant has shown that their process produces a distinct properties in the coated strips. As evidenced in applicant's disclosure (e.g. see Table 1), the applicant's disclosed properties are a result of applicant's process and these properties are described by coated sheets having the relationship of the formula in the independent claim. The properties would not be expected to be inherent to strips produced by the prior art of record and there is suggestion in the prior art of record to modify any of the prior art processes to produce strips having meeting the claimed relationship.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John J. Zimmerman whose telephone number is (571) 272-1547. The examiner can normally be reached on 8:30am-5:00pm, M-F. Supervisor Deborah Jones can be reached on (571) 272-1535. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
